

IN THE SPECIFICATION:

Delete the paragraph [0045] and replace it with the following new paragraph:

[0045] Preferably, a record is kept of the cumulative dose of exposure of the test surface 28. When a quantitative analysis is made of material deposited or removed from the test surface 28, a ratio between the cumulative dose and the magnitude of the amount of material is determined. Corrective action is taken if [[the]] this ratio passes a predetermined threshold that indicates that the magnitude is too high.
